Importance of LinkedIn

International Community

40.3% of users work in the textile industry and 15.4% in the apparel and fashion industry. Our community includes people from 95 different countries.

Organic growth

Digital networking is more important than ever, which is why our community is growing daily. OEKO-TEX® is committed and offers users first-hand information.

The business platform

All our stakeholders (institutes, B2C & B2B) are registered & reachable on this platform professionally or commercially.

Informal content

High-quality content not only increases the visibility of OEKO-TEX® but also serves as material for our institutes and can be used anytime. Furthermore, potential customers are informed via this channel.
